Undergraduate programs

First: Hone critical skills and build broad base of knowledge in the College of Arts and Sciences.

Then: Declare major within the College of Arts and Sciences or apply to one of our professional schools for last two years of study.

**Media and Journalism:** Follow in the footsteps of iconic ESPN anchor Stuart Scott or earn another Pulitzer (to add to the school’s 28) like alumna Helene Cooper in 2015 for her work on team coverage of the Ebola epidemic in West Africa.

**Nursing:** Gain classroom and clinical training at one of the nation’s premiere schools, which boasts a 97% nursing board pass rate on the first attempt.

**Eshelman School of Pharmacy:** Apply directly to the nation’s top pharmacy school* as early as your sophomore year in order to earn your Doctor of Pharmacy degree.

**Gillings School of Public Health:** Learn how to lead in improving public health and eliminating health inequities in North Carolina and across the world.

College of Arts and Sciences: Choose from more than 40 majors in the humanities, social sciences, or natural sciences.

Kenan-Flagler School of Business: Within a community-oriented environment that has a 94% success rate of job or graduate school placement, emerge a principled leader with a global network.

Education: Newly designed program allows you to earn a bachelor degree and Master of Arts in Teaching in five years with extensive classroom experience and exposure to the best practices in educational research.

Information Science: Hone in-demand skills such as web design and social networking at one of the nation’s top 2 schools* with a 90% job placement rate for undergraduates.

Graduate programs

**WANT MORE?**

A quarter of our graduates go immediately into top professional or graduate programs, including those at UNC (through the College of Arts and Sciences and other schools).

UNC graduates are particularly well-positioned to succeed through our pre-med, pre-law, or pre-dental tracks.

School of Dentistry: Improve dental health through interdisciplinary learning, research, and community outreach at a new, state-of-the art facility with a wide range of patient care, from caring for young children on the Cherokee Reservation in the western part of N.C. to providing sophisticated implant treatment in our school clinic.

School of Government: Advance your leadership skills in public service and develop expertise in a wide array of areas ranging from city management to public policy analysis to ethics and management.

School of Law: Learn from the nation’s finest teachers and researchers with your service-minded peers and gain strong expertise in civil rights, banking, environmental law, intellectual property, entrepreneurial and securities law, and constitutional inquiry at a nationally ranked law school.

School of Medicine: Be at the forefront of new life-saving discoveries alongside world-renowned clinicians, researchers, and 2 Nobel Laureates in a school ranking nationally in the top 2 for both primary care and rural medicine practice.*

School of Social Work: Change lives at a top 10 program for Social Work with opportunities to conduct field work at over 250 agencies across N.C. and research pressing issues such as substance abuse.
